Education

client

St Columba's College

project cost

Phases 1 to 3, combined value; £700,000

date and location

2012 - 2014

contractor

Shield

Praxis was engaged to project manage the design and procurement process. A flexible strategy was required to deal with funding options and the logistics of delivery in a narrow school recess period.

A new supply chain was sourced to assist the Client in delivering the brief and enhance the educational experience and also the flexibility of the current science facilities.

Bespoke technicians facilities were incorporated and an additional laboratory offering greater class flexibility.
